EXPERIENCE

Visagio
Senior Product Consultant / Product Manager (Jul 2022 – Present)
Product Consultant (Jan 2021 – Jun 2022)
Intern (May 2020 – Dec 2020)

- Led cross-functional teams to **deliver 10+ high-impact digital products** to clients across natural resources, oil & gas, and insurance sectors in APAC.
- Led the development and implementation for a supply chain planning application, delivering an estimated **$17.5M AUD EBITDA uplift** by optimising production and maintenance plans.
- Led the development and implementation of a train driver resource allocation application, **cutting driver wait times by 40%** at a remote mining port.
- Led a first-of-its-kind management system implementation project in Singapore, successfully establishing a strong partnership that has **spanned 2+ years and involved 30+ consultants**.
- Led the development of an internal innovation management application, increasing **active users from 20 to 300+** after a successful deployment.

v(dev), a Visagio company
Product Lead (Jul 2023 – Present)

- Currently leading the productification workstream, converting successful product-related consulting success stories to fit-for-purpose digital products.
